Download the Online Oxford Collocations Dictionary for English Students: A Corps-based Dictionary with a CD-ROM that most often shows us a whole new type of word-co-location that helps students and advanced students study, write and speak Natural English. This online dictionary is very useful for educating IELTS, TOEFL test. Level: Upper-Intermediate to Advanced Key features of the Oxford Dictionary of Online Colocation/Colocation - common combinations of words such as 'bright idea' or 'feel free to talk' - are essential building blocks of English natural sound. The dictionary contains more than 150,000 colosions for nearly 9,000 headwords. The dictionary displays words commonly used in combination with each head: nouns, verbs, adjectives, attachments and prepositions, common phrases. The dictionary of co-location is based on 100 million words of the British National Corpus. More than 50,000 examples show how colocation/colocation is used in context, with grammar and registration data where useful. A clear layout of the pages of the group colloquialism according to the part of speech and meaning, and helps users determine the quick headword, feeling and colocation they need.
